ACHEMA Media-Lunch

11. June 2018, 1 p.m., ACHEMA, Exhibition Hall 9.2, Room Dialog

Media Lunch: Sustainable Chemistry: Reinventing a 150 year old industry

Chemistry is facing the biggest challenge in its history: Meeting the needs of a sustainable future. What are the challenges for the chemical industry on the way to sustainable development? What needs to change? What are the prospects of sustainable chemistry? And how do we shape the transformation of a 150 year old industry – for the greater good? The International Sustainable Chemistry Collaborative Centre (ISC₃) addresses these questions on a global scale. Learn more about the ISC₃ and its groundbreaking work during the press-lunch.

Debate with

Friedrich Barth, Managing Director of the ISC₃
Dr. Andreas Förster, Director of the ISC₃ Innovation Hubs
Tony Bova, CEO and Co-Founder of GrowBioplastics

Media representatives are invited for a counter lunch afterwards.

Visit us!

ISC₃ Booth at ACHEMA

The ISC₃ promotes and develops Sustainable Chemistry solutions worldwide. In cooperation with Think Beyond Plastic™ the ISC₃ showcases innovations and start-ups at ACHEMA Trade Fair.

Exhibition Hall 9.2 B87, Research & Innovation

Pitch Presentation

12. June, 3.30 p.m., Exhibition Hall 9.2, Discussion Corner

Transforming Chemistry for a Sustainable World: Global Innovation Showcases

ISC₃ showcases innovative sustainable chemistry solutions in cooperation with Think Beyond Plastic™. Pitch Presentations by: Altas Nova, Spain; EVOWARE, Indonesia; Fraunhofer ISC, Germany; GrowBioplastics, USA; VTT Technical Research Centre of Finland Ltd, Finland
