

Do you want to become a Sustainable Chemistry changemaker?

Chemistry is ubiquitous in our daily lives and has a great influence on our well-being. Applied correctly, it can significantly contribute to the UN Sustainable Development Goals, e.g. to fight climate change, pollution, hunger, resource scarcity and much more.

Chemistry and all sectors using chemical products need to strive for more sustainable solutions. If you have an idea that makes an impact for a more sustainable world, join our programme!

What is the ISC₃ Global Start-up Service about?

Our ISC₃ Global Start-up Service is the provider of both general and customised support for start-ups in the area of Sustainable Chemistry. We target innovators along the entire innovation chain and accompany them on the journey from discovering an innovation to creating marketable value and expanding their business. Our service comprehensively addresses three key aspects: sustainability, chemistry and global reach.

Sustainability

We foster commercialisation of sustainable research and innovation

Chemistry

We address exclusively the needs of chemistry-related start-ups

Global Reach

We create an enabling environment on a global basis

www.isc3.org

"We believe that sustainable chemistry start-ups have the potential to drive the chemical industry towards sustainable development. At ISC₃, we help them unleash this potential."

*Andreas Förster,
Director ISC₃ Innovation Hub*

About ISC₃

ISC₃ was established in 2017 as a new independent institution promoting and developing sustainable chemistry solutions worldwide. Acting as an innovation promoter, dialogue platform and an education hub, the ISC₃ aims to shape the transformation of the chemical sector towards sustainable chemistry.

Sustainable Chemistry innovators
worldwide*

ISC₃ Global Start-up Service at a glance

Who can participate?

Discover

Inventors seeking to turn their ideas into early-stage innovations

Create

Early-stage innovators aiming to develop concrete, marketable value

Expand

Innovators pursuing expansion and commercialisation strategies

Which support do we provide?

Global ISC₃ Spiderweb Network
Constantly growing network of organisations and individuals promoting Sustainable Chemistry in different world regions

General Support

Basic, universal support granted to all innovators joining the ISC₃ Global Start-up Service:

- Access to Sustainable Chemistry Toolbox with tutorials and educational materials on entrepreneurship, business development, sustainable chemistry as well as relevant market information
- Membership in the ISC₃ Virtual Marketplace (to meet like-minded start-ups, investors and industry partners)

General Support Plus

More personalised support to promote your innovation:

- Invitation to pitch events, exhibitions and workshops with investors and leaders from industry, science and politics
- Access to the global support infrastructure of the ISC₃ Spiderweb Network partners

Customised Support

Tailor-made support depending on your needs:

- Mentoring, IP management support, help with access to finance and prototyping infrastructure, market knowledge and much more!
- Publication of your innovation on the ISC₃ website

ISC₃ Virtual Marketplace

Online brokerage and matchmaking platform providing a vital space for networking, training and knowledge sharing
