ISC3 CORPORATE CHALLENGE

Call for Partners

The ISC3 Innovation Hub is looking for an Industry Partner to launch the next ISC3 Corporate Challenge on Sustainable Chemistry!

About the Challenge

The ISC3 Corporate Challenge is the first Sustainable Chemistry Corporate Challenge with the aim to match industry partners and start-ups based on unique industry calls in the chemical or chemical-related sector.

The goal is to find tailored-made solutions to critical problems, promote innovation and accelerate Sustainable Development.

Partners Opportunities

- Choose a Sustainable Chemistry topic! (waste management, energy, dyes, agriculture, food, personal care products, etc.)
- Choose a prize! (cash awards, lab access, joint projects... etc.)
- Lastly, select the winners!

About Us

The ISC3 is an international centre that fosters the transition of the chemical and chemical-related sectors to Sustainable Chemistry, promoting a circular economy that is striving to implement multifaceted aspects of sustainability at every step of the life cycle of products and changing all stakeholder behaviour.

The Centre was founded in 2017 as a initiative of the German Federal Ministry for the Environment, Nature Conservation, Nuclear Safety, and Consumer Protection (BMUV) and the Federal Environment Agency (UBA).
