

## Job Advertisement

**DECHEMA Society for Chemical Engineering and Biotechnology is a non-profit organisation comprising a network of experts, institutions, and enterprises representing various disciplines. We foster the scientific exchange, identify and assess new technological trends, and accompany the deployment of research results in technical applications. DECHEMA has more than 5.800 personal members and member organisations.**

**DECHEMA runs the “Innovation Hub” of the International Sustainable Chemistry Collaborative Centre (ISC<sub>3</sub>, [www.isc3.org](http://www.isc3.org)). As core activity of the Innovation Hub, we are currently establishing a “Global Start-up Service - GSS” aiming at the support of sustainable chemistry entrepreneurs on a global level.**

**In order to strengthen our GSS activities and to support our team we are looking for a dedicated and engaged individual as**

### **International Relations Manager**

The position is offered full time but is initially restricted to a 1-year period.

The position should be filled as early as possible.

#### **YOUR JOB TASK**

- Engage with a large international network in the field of sustainable chemistry including incubators, accelerators, start-up support organisations, international organisations, investors, trainers, and mentors
- investigate the ecosystem in countries under scrutiny, identify and reach out to potential partners and build-up collaborations for our Global start-up service
- Liaise with existing network partners and develop collaborations in terms of concrete activities and services for the GSS
- Support team members in international activities, fact-finding missions, etc.
- Manage, monitor, document and evaluate the progress of the partner network (number of partners, regional, thematic and institutional mix, etc.)
- Support GSS activities incl. events and materials for start-ups
