

Invitation

1st Year Anniversary Event

Dear Friends and Partners of the ISC₃

Dear Sir or Madam

To celebrate the successful first year of the International Sustainable Chemistry Collaborative Centre (ISC₃) as well as to present our upcoming activities, the ISC₃ will host an anniversary event on 17 September 2018 in Bonn. The event will introduce you to the emerging concept of sustainable chemistry as a game-changing contribution to sustainable development and invites you to join the work of the ISC₃.

The ISC₃ is a new independent, international institution promoting sustainable chemistry solutions worldwide. In September 2017, the ISC₃ opened its offices in Bonn hosted by GIZ – Deutsche Gesellschaft für Internationale Zusammenarbeit.

As a new transformative approach, sustainable chemistry focusses on the use of environmentally and socially friendly alternatives and supports economic innovation. Delivered at scale, it implies new business opportunities, new jobs, and a key contribution to the UN Sustainable Development Goals.

The ISC₃ is committed to shape this transformation in cooperation with all stakeholders. We would therefore be delighted to inform you about our work and introduce you to the next steps we want to take on the road to sustainable chemistry – together with our partners and stakeholders from all over the world.

We are looking very much forward to welcoming you at the ISC₃ in Bonn!

Sincerely,

*Friedrich Barth
ISC₃ Managing Director*

Programme

Monday, 17 September 2018, 2 pm – 4 pm, get-together afterwards

Location: ISC₃, Simrockstrasse 5, 53113 Bonn, Germany

Welcoming Address by the ISC₃

Friedrich Barth, Managing Director of the ISC₃

Opening Remarks by the German Federal Ministry for the Environment

Svenja Schulze, Federal Minister for the Environment, Nature Conservation and Nuclear Safety (BMU)

Opening Remarks by GIZ

Tanja Gönner, Chair of the Management Board of GIZ – Deutsche Gesellschaft für Internationale Zusammenarbeit

“We transform chemistry – views from UBA”

Dr. Jutta Klasen, Head of Chemical Safety Division at the German Environment Agency (UBA)

Video-Message by UN Environment

Ligia Noronha, Director of Technology, Industry and Economics at UN Environment (tbc)

Key Note “Chemistry in the context of Sustainable Development”

John Warner, President & CTO of the Warner Babcock Institute for Green Chemistry (tbc)

Panel Discussion

“Sustainable Chemistry as a transformative driver of innovation”

Panelists:

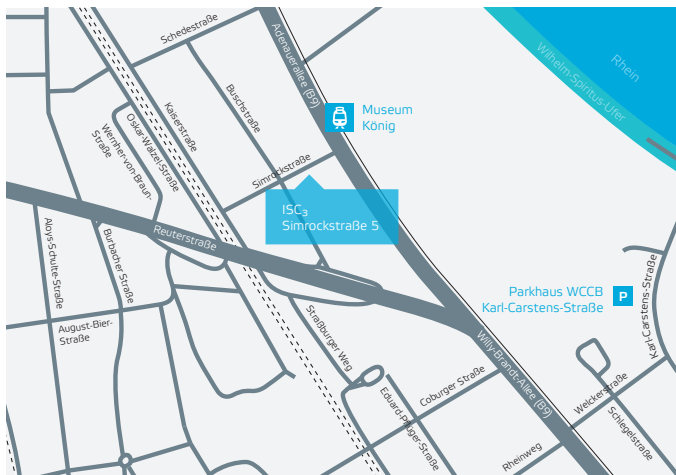

- Anne-Sofie Andersson, IPEN and ChemSec (tbc)
- Dr. Thomas Jakl, Federal Ministry for Sustainability and Tourism, Austria (tbc)
- Marco Mensink, cefic and ICCA Secretariat (tbc)
- John Warner, Warner Babcock Institute for Green Chemistry (tbc)

Moderation: Dr. Mai Thi Nguyen-Kim, WDR (tbc)

Closing Remarks

Friedrich Barth, Managing Director of the ISC₃

Get-together (4 pm)

How to find us

The ISC₃ is located in Bonn Südstadt and can be reached by car via Friedrich-Ebert-Allee/Willy-Brandt-Allee (B9) and Reuterstraße or via Adenauerallee (B9).

Going by underground (U-Bahn) from Bonn Central Station you can reach the ISC₃ by taking train no. 16/63 heading for Bad Godesberg or train no. 66 heading for Bad Honnef. Get off at "Museum König".

Please note

Limited parking space available. We recommend public transfer. Next parking garage: Parkhaus WCCB, Karl-Carstens-Straße, 53113 Bonn, ca. 7 min by foot. (Please enter Welckerstrasse as the address in your navigation device.)

Registration

Please let us know whether you wish to participate until 20 August 2018. Send an Email to contact@isc3.org. Please do not hesitate to contact us if you have any questions.
